

# Missionary Family Care and Education

\$100,000

LWML shows God's love to missionary children, commonly called "missionary kids" (MK's), by meeting their educational needs in a variety of ways so that they may be lovingly nurtured with a well-prepared, positive, Christian education so that they are better equipped to transition successfully between cultures.

The students at Hong Kong International School, including children from several missionary families, take field trips to learn more about the area where they live. Here, an elementary school class goes to a local museum.

Students love to have class in new ways, no matter where they live! These students are having their art class outside!

*We pray together...*

Dear God of All Creation, it is Your desire that all people come to know You and receive the life-giving truth of salvation through Jesus Christ. To this end, You have called men and women to go to "the ends of the earth" to spread the Gospel to all people. These missionaries often have children who need to study in a variety of settings, from home schools to Christian boarding schools. Enable these MKs to transition successfully between cultures with a well-prepared, positive, Christian education. Bless the funds provided by this LWML grant to help missionary parents provide good opportunities for their children to learn in an effective way. In Jesus' name we pray. Amen.
