

Gospel Outreach through Open Arms Child Care \$65,000

LWML shows God's love to children and families by supporting the establishment of new Word and Sacrament ministries in growing communities in the United States and by expanding child care ministry programs in existing churches, as well as developing a Christian curriculum for full-time child care ministries.

Nearly 300 children learn of their friend Jesus every day during Bible story time at Loving Arms in Oswego.

Below: God's Word is at work with very young children, and also with the parents, who can "get the Message" when they drop off and pick up their children.

We pray together...

Father of All, most gracious God, You have said that unless we have the faith of a little child we cannot enter Your Kingdom. We praise You for the God-given faith to which You have brought many families through the witness of little children who are cared for in one of the Open Arms Child Care Centers in the United States. Bless this grant which seeks to expand this ministry to both churched and unchurched families in more congregations as they seek guidance from Open Arms Institute throughout the land. Also, bless the work being done on the Christian early childcare curriculum so that many more families can be touched by Your love and learn to trust and follow Jesus, in Whose name we pray, Amen.
