

Banner Pattern

Key:

Each pattern square represents approximately 3.5 square inches for the actual banner.

Suggestion: Add thick ribbons to the bottom of the banner, hanging down vertical, complementing the logo colors.

Handy Tips

- Use fabric firm enough to accept glue or applique without pulling or sagging.
- To give fabric, stability back with *Wonder Under*® or *Heat 'n Bond*®.
- Add a small dowel to the bottom of the banner to keep it hanging straight without corners turning up (may be glued on).

For Further Reference

If you need assistance with basic banner instructions or want additional tips and techniques for banner construction, *Quick and Easy Banner Designs* published by Concordia Publishing House is a good reference tool. Contact Concordia directly at 800-325-3040 (stock #12-3279, \$12.99). This book also discusses the pros and cons of various types of fabrics for use in banner-making.
